

Gilbert E. Cohen

President and Chief Executive Officer of Eliasol Energy, LLC

"A true pioneer and recognized leader in the solar energy industry, Gilbert Cohen has been making strides in his field for more than three decades."

- *Pro-Files Magazine*

Gilbert at a Glance

With a fiery tenacity for the development of solar energy and power sources, Gilbert Cohen has lead Eliasol Energy, LLC as president and chief executive officer for the past five years. Having opened the engineering consultancy on his own, Eliasol Energy, LLC relies on Mr. Cohen's disciplined expertise to provide consulting and engineering services for the design of solar power plants and solar collectors internationally. His daily routine includes overseeing all operations and maintenance, handling construction management, developing CSP projects, and managing all international relations.

The highlight of Mr. Gilbert's career was the completion of the Nevada Solar One power plant in Boulder City, Nev., in 2007. His involvement in his profession began after attending a meeting with one of the pioneers in solar energy, solar power and renewable energy. In 1972, he received a Bachelor of Science in electro-mechanical engineering, and completed coursework at the ICS Business School in Scranton, Pa. He is a former board member, as well as a fellow and lifetime member of the American Solar Energy Society, and holds membership with the International Solar Energy Society. In five years, Mr. Cohen aspires to aid in the development of 1,000-megawatt solar power plants.

Work History

- Engineering Consultant for Shikun Binui Renewable Energy (2010-Present)
- Senior Advisor for ACCIONA S.A. (2008-Present)
- Advisor for Sunborne Energy Technologies (2008-Present)
- Consultant for Nextlight (2008-2009)
- Senior Vice President of Acciona Solar Power (2005-2008)
- Vice President of Engineering and Operations at Solargenix Energy LLC (2000-2005)
- Vice President of Engineering and Operations at Duke Solar (1998-2000)
- Executive Consultant for SolarPaces (1996-2007)
- Manager of Technical Services for Kramer Junction Company (1991-1998)
