

STEPHEN P. WARMAN, MD

OTOLARYNGOLOGIST
EAR, NOSE & THROAT ASSOCIATES OF NEW YORK, PC

With more than three decades of experience, Dr. Stephen P. Warman is an expert in all areas of Otolaryngology. Today, he is an otolaryngologist with the Ear, Nose & Throat Associates of New York, one of the largest specialty ENT practices in the New York Metropolitan area. The practice offers top-of-the-line services pertaining to otolaryngology, endoscopic sinus surgery, allergies, immunology, cosmetic surgery, audiology, sleep disorders and swallowing disorders. As a member of the team, Dr. Warman demonstrates a high level of proficiency in all of these areas. In addition, he facilitates complete diagnostic evaluations for ear, nose and throat problems, as well as advanced testing for many of the areas mentioned above. When asked how he became successful, Dr. Warman credited his personality and the professional training he completed before beginning his career. In addition, he notes that he always wanted to work in the health care field, and upon pursuing his studies, he felt otolaryngology was the best fit for him.

Dr. Warman's top skills are supported by his academic background. Now a board certified physician, he came to prominence after earning an MD at New York University and completing an internship and residency at the Albert Einstein College of Medicine at Yeshiva University. A believer that continued professional development is necessary for success, Dr. Warman remains at the top of his field through his memberships with various medical societies and organizations. He is affiliated with The Medical Society of the County of Queens, the American Academy of Facial Plastic and Reconstructive Surgery and the American Academy of Otolaryngology.

To expand his impact on his industry, Dr. Warman has taken on additional roles outside of his profession over the last three decades. He is a regular speaker for the professionals working at GlaxoSmithKline PLC, a leading pharmaceutical company, and at Astepro, the makers of a leading azelastine hydrochloride nasal spray used to prevent sneezing, itching, runny nose and other nasal symptoms associated with allergies. In addition, he works with Astepro in four of its 22 offices with 16 physicians, two physician assistants and four allergists, to help collaborate on a variety of projects. As he looks to the future, Dr. Warman intends to remain successful and take on new opportunities in the field of otolaryngology as they arise.
